### **A Shared Life is a Healthy Life**

A HomeShare provider is someone who opens up their home and family life to include an adult with support needs. Home Share providers come from all walks of life and don't need qualifications or experience, just the right attitude and a willingness to truly share their lives with another person. The program also offers a respite service for the caregivers and occasionally for families.

Are you interested in providing care in your home or do you know someone who would be? Currently Inclusion Powell River is in need of caregiver(s) with the ability to cope with some behavior and /or mental health issues. Day supports, respite and training are provided. Other care giving opportunities are also available. Contract rates depend on level of care required. An opportunity for you or your family to welcome someone into your home and your everyday lives.
